

## QS1000 Identification Scanner

The QS1000 is a lightweight, compact, full-page document scanner that inspects and images all International Civil Aviation Organization (ICAO) standard travel documents, such as passports, visas, national travel documents and driver's licenses.

Utilized in conjunction with the Veridocs Document Library, ID's are automatically classified and the data extracted by OCR from all Machine Readable Zones, as well as the barcode and the cleanest information is presented to the end-user.

The QS1000 automatically detects the presence of an ID and triggers the capture of its image, and can read and present the data and image if askew, making it quick and effortless to use.

The QS1000 scanner is ideal for data-capture with verification scenarios.

### Scanner Specifications

Interface: USB 2.0  
Width: 6.4" (16.2cm)  
Depth: 7.5" (19.0cm)  
Height: 6.2" (15.7cm)  
Weight: 2.2 lb (<1 kg)

Power:  
Input: 100 – 240VAC +/-10%  
Consumption: <7W at 12VDC

### Features:

-  Full-color images in white light
-  Captures Optical Character Recognition (OCR)
-  Captures images in Near-Infrared (NIR) light
-  Reads 1D and 2D barcodes
-  Auto-trigger document capture
